

The History of India, Vol. 1 (Classic Reprint)

The appearance of a new history of India requires some words of explanation. If the ingenious, original, and elaborate work of Mr. Mill left some room for doubt and discussion, the able compositions since published by Mr. Murray and Mr. Gleig may be supposed to have fully satisfied the demands of every reader. But the excellence of histories derived from European researches alone does not entirely set aside the utility of similar inquiries conducted under the guidance of impressions received in India ;which, as they rise from a separate source, may sometimes lead to different conclusions. Few are likely to take up these volumes, unless they are previously interested in the subject, and such persons may not be unwilling to examine it from a fresh point of view :if the result suggests no new opinions, it may at least assist in deciding on those contested by former writers. In the choice of difficulties presented by the expression of Asiatic words. In European letters, I have thought it best to follow the system of Sir W. Jones, which is used by all the English Asiatic Societies, as well as by Mr. Colver. (Typographical errors above are due to OCR software and do not occur in the book.)
