

The Strategy of Education Development in Azerbaijan

This is the first book that combines worth-while investigation on the history of education of Azerbaijan with the official documents issued over the past 20 years due to the development of national education. Main goal of the author is to reveal and show all the details that condition the achievements of educational policy, to focus attention on the importance and the need for reforms in the field of education, noting the enormous role of the national leader Heydar Aliyev in this field. The book contains materials that are important as an objective source for learning the activities of the President of the Azerbaijan Republic Ilham Aliyev in the field of education, as well as official documents, which serve the legal base for the development of education. This monograph is based on real documents and facts which stimulate the development of modern education. From this point of view this book will draw interest not only for specialists but for a wider audience that wants to get to know this area well.
