

Discover Your Own Literacy (Reading/Writing Teachers Companion)

The reading and writing processes have historically been kept apart, but with this series you can explore their richness for yourself and your students in ways that unite the processes meaningfully and productively. Discover Your Own Literacy This volume offers a look at some teachers who combined their own explorations in literacy with their students, encouraging teachers to experiment with their own writing, reading, listening, and learning. The Actions here help make the transition from basals to trade books, abolish reading groups, and discover learning episodes with children.
