

Keys to Success for Adult Learners (Key Series Audience-specific)

As part of the Keys to Success series, this chapter-sized segment provides success strategies specific to adult learners needs, including their life demands, family responsibilities, and professional obligations in addition to school. Keys to Success for Adult Learners is a concise and focused one-chapter-sized segment that validates and supports the growing population of adult learners. With a discussion of the benefit of life experiences, it helps adult learners understand how what they already know can help them learn in an academic setting. With specific strategies that take into account the circumstances of non-traditionally-aged students, it helps the adult learner prepare effectively for college, work smart while there, manage academic responsibilities, and handle stress. These materials are designed to increase the engagement and retention of the adult learner, benefiting learners as well as institutions.
