

Historic Photos of the University of Florida

Founded in 1906 in Gainesville as a consolidation of several smaller institutions focusing on agriculture, teacher training, and the military, the University of Florida enjoys a storied history. From its first years enrollment of 102, the school has grown to become one of the largest educational institutions in the country. As a world leader in the disciplines of engineering and science, the university conducts important research in agriculture and other fields and boasts a medical school with an international reputation. Sports fans cheer the football team, which holds an unbroken string of winning seasons since 1988. Join author Steve Rajtar in this jaunt down memory lane as he revisits key moments, pivotal leaders, and important landmarks in the history of UF, from its origins in the nineteenth century to recent times. Historic Photos of the University of Florida, showcasing the home of the Gators and the birthplace of Gatorade, belongs in the library of every graduate and all supporters of one of the nations leading public universities.
