

The education of Henry Adams: An autobiography

Adams was a historian, an intellectual born into the fourth generation of a family of distinguished politicians, diplomats and statesmen that included two presidents of the United States. His Education is thus steeped in history, that of his family and of the American politics, culture and identity they helped to shape. At the same time he elaborates his own dynamic theory of history as the product of what he calls the conflict between the Virgin and the Dynamo: All the steam in the world could not, like the Virgin, build Chartres.
