

The Heather in Lore, Lyric and Lay, By Alexander Wallace (Classic Reprint)

Now, what we especially need for educational purposes, is,, to know, not the anatomy of plants, but their biography how and where they live and die, their tempers, benevolences, distresses and virtues. The quaint sentiment voiced by the great philosopher many years ago is somewhat significantly in harmony with this dawning time of a simpler and brighter understanding of humanity and of nature.(Typographical errors above are due to OCR software and dont occur in the book.)About the Publisher Forgotten Books is a publisher of historical writings, such as: Philosophy, Classics, Science, Religion, History, Folklore and Mythology.Forgotten Books Classic Reprint Series utilizes the latest technology to regenerate facsimiles of historically important writings.
