

College of Charleston (South Carolina) (College History Series)

The eleventh-oldest college in the nation, the College of Charleston stands as one of the country's most historic academic institutions. Over the past few centuries, the College has provided education and opportunity for students, faculty, and local Charlestonians against a rare Southern backdrop, with a campus that mirrors the architectural charm and elegance of the peninsula city. This volume, with over 200 black-and-white photographs, transports readers on an incredible visual journey across an nineteenth- and twentieth-century landscape of Charleston, a time and place unique in the city's and schools' history. Documenting the school's antebellum days as the first municipal college in 1837, the turbulent years of the Civil War, the campus's growth and evolution in the earlier part of the twentieth century, and the traditions that continue today, this pictorial retrospective explores the many elements of the Cougar experience: the College's student life, the development and preservation of its buildings, its athletic teams and events, and the many diverse student-run organizations.
