

What Pupils Really Think about their Schools: A Powerful Resource for School Improvement

This book provides a fascinating overview of all aspects of secondary school life - through the eyes of its students. It examines how their experiences can help us as teachers to take stock of our teaching styles and methodologies, and allows us to take a fresh look at the way our schools are run on a daily basis. It gives teachers an opportunity to evaluate and refresh not only how they teach, so that effective learning can take place, but also reviews the impact school management and administrative procedures have on the lives of our students. Brimming with honest and down-to-earth advice, this highly practical guide is written for all classroom teachers, as well as middle and senior managers.
