

OSHA 1910 Subpart N Derricks: DUVALLS BOOKS Subpart 1910.181 Derricks 2014 Edition

29 CFR OSHA PART 1910 Subpart N-Materials Handling and Storage Textbook for Paragraph 1910.181 Derricks, is subject specific for this important paragraph. The Work is presented in our copyrighted sequential format paralleling the official OSHA publication. The work is presented in our excellent, easy to read paragraph-sentence structure of multiple-choice test type questions with answers. No guesswork, frustration, or backtracking to locate obscure, hidden questions. All that is required is to read the printed word. Complex, difficult paragraphs are broken down into clear, easy to read sentences. This is our excellent, easy to read OSHA textbook/study guide and workbook. This is an excellent platform for the student, including students who do not have an English language background. The work is written for the individual who is trying to put food on the table and to improve their quality of life. This Work was designed and proven in the classroom to improve reading skills and subject comprehension. The college student, the high school student, the home study student and the foreign language student can benefit from the application of this knowledge. Instructors of technical studies will find a simplified path for developing current classroom study rather than using outdated information and material. In addition, with the substantial and ever increasing library of our Works it is now possible to create specific test protocols for technical and continuing education students at minimal cost. The use of e-OSHA files is encouraged to further expand and retain the important Life Safety information contained in OSHA. The knowledge base, comprehension, and reading skills of the student can be improved by diligent reading and following the textbook/study guide/workbook. An important additional benefit to this Work is found by gaining the

knowledge of where important information pertaining to OSHA is located. This is an important consideration when testing in the educational environment. This Work, this method, this procedure, is not about learning answers. This Work is about education, knowledge and improving individual reading skills.
