

Democratic Education in an Age of Difference: Redefining Citizenship in Higher Education

An excellent resource for faculty and student affairs professionals in all segments of higher education who want to better understand their mutual relationships and responsibilities in preparing students for a pluralist democracy. -- Gwen Dungy, executive director, NASPA This book addresses the need for colleges and universities to design educational experiences that promote the objectives of a free society while recognizing and embracing difference. The authors detail some of the experiments taking place across American campuses and reveal how each approach fosters the development of democratic sensibility, citizenship skills, and multicultural appreciation.
