

Rob Longs Intervention Toolbox: For Social, Emotional and Behavioural Difficulties (Lucky Duck Books)

Rob Longs Intervention Toolbox is written for education practitioners who support young people with problem behaviours that act as barriers to their successful engagement with school. Taking a multi-dimensional approach, the Toolbox provides solutions to deal with the multi-faceted nature of challenging behaviour. There are 6 compartments to the Toolbox: Physiological; Feelings; Behaviour; Cognitive; Social; Happiness. For each compartment there are a number of tools (interventions) that may be used depending on the age and level of understanding of the young person. As all problem behaviours have many component parts, the Toolbox enables practitioners to employ several interventions to comprehensively tackle challenging behaviours. There are specific sections on both Aspergers Syndrome and Attention Deficit Hyperactivity Disorders with In Class Behaviour Plans for these learners, as well as an accompanying CD Rom including resources for putting strategies into practice. The CD Rom also provides PowerPoint slides for training staff in using the Toolbox. As an experienced professional, teacher and educational psychologist, Rob Longs strategies combine innovation with sound psychology and learning theories. There are specific sections on both Aspergers Syndrome and Attention Deficit Hyperactivity Disorders with In Class Behaviour Plans for these learners, as well as an accompanying CD Rom including resources for putting strategies into practice. The CD Rom also provides PowerPoint slides for training staff in using the Toolbox.
