

Monasticism; What Is It?: A Forgotten Chapter in the History of Labour (Classic Reprint)

Excerpt from Monasticism; What Is It?: A Forgotten Chapter in the History of Labour

Broadly speaking, there is not another subject of which the average intelligent Englishman is so grossly ignorant than that of Monasticism. Of its method and scope; the various and component parts of its organisation; the classification and variety of its orders, each founded with a different end and object; he knows practically nothing. Ask him what Monasticism is, and he replies: It is Popery, or, at the best, Jesuitism in disguise! This ignorance is very wide-spread. Even the Press, both secular and religious, is not entirely free from it; the latter frequently bewailing it as a most pernicious system of the most virulent Roman type; the germ, in fact, of that horror of horrors - Romanism! It is proposed to deal exclusively with Christian Monachism, necessarily within a very limited area, for to give anything like an adequate idea of so vast and important a subject, would require a series instead of one single volume. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
