

Confronting Child Maltreatment Through Recreation

Recreation professionals as well as physicians, educators, psychologists, social workers, social philosophers, and practically all professionals concerned with human growth and development, recognize recreation's role in the intervention, prevention, and treatment of one of our society's most hideous maladies—child abuse. Yet definition is lacking on how to provide definitive recreation programs for youth which will assist in demonstrating child behavior which labels such behavior as being dangerous to themselves and others. This book is a helpful guide to the many who need to know how to combat child abuse through recreation. Many new topics are covered in this Second Edition.
