Adrienne Mack-Kirschner work with the National Board program makes her the ideal person to advise certification candidates. Mack-Kirschner makes sense of these materials, particularly those pertaining to the Five Core Propositions at the heart of NB certification. She makes the propositions user friendly, pulling them apart and explaining exactly what they mean. She also discusses classroom practices that are doable and effective, and that meet the criteria of the propositions. Her whole approach is practical, hands on, supportive.

Pick up The Teachers Guide and begin with any section, read from cover to cover, or turn to specific topics. Discover the premises behind everything the National Board process requires of you, in addition to the nuts and bolts of completing the portfolio. Learn that the National Board for Professional Teaching Standards is really not a scary thing, but an inspirational prototype for what accomplished practice can be. It motivates, validates, and ultimately celebrates good teaching. And good teaching is what YOU are all about.
