

Walking to America: A Boyhood Dream

Walking To America follows and recreates an immense family journey, in search of a new life and a miracle doctor who could cure the blindness of one of their number. The journey was taken largely on foot from England in the 1880s, to Liverpool, Philadelphia, Pittsburgh, New Orleans, Texas, New Mexico, Arizona, and back again. Written as travelogue and as a history of one of the great neglected subjects the New World immigrants who returned home to the Old World Walking to America is a personal tale, full of characterisation and human stories, based upon received lore, followed footsteps and careful historical research. An epic tale, covering thousands of miles and cultures and places as diverse as the Victorian UK coalfields, the great imperial entrepot of Liverpool, the post-bellum American south, roaring 1880s New Orleans, the stew of the free-for-all Pittsburgh mines, Texas in the wake of the Alamo, the unclaimed Indian Territory of North America, and the ultimate frontier of the Petrified Forest in Arizona all seen through the eyes of real and ordinary men, women and children from the north-east of England. Walking to America is a great and gripping adventure of discovery, hope and loss.
