

# CNC machining technology and equipment (higher vocational education planning materials Mechanical Engineering)(Chinese Edition)

Paperback. Pub Date: October 2009 Pages: 294 Publisher: China Electric Power Press Machinery of higher vocational education professional planning materials: CNC machining technology and equipment. a total of eight units. the main contents include an overview of the CNC machining technology. CNC machining the basis of cutting. CNC machining process on the basis of numerical control machine tool clamping way. CNC lathes and turning process. CNC milling machines and milling processes. machining centers and processing technology. CNC WEDM and wire cutting process. The book is the main line to the CNC machining process. based conventional manufacturing techniques. examples of commonly used equipment. introduced the basic knowledge of the characteristics of CNC machine tools. transmission system. a typical structure and its processes. focusing on knowledge practicality and as far ...
