

Asian Journeys: A Primer for the Independent Traveler

The one word which best describes India is more. Its more crowded, noisier, more colorful, tastier, dirtier, poorer and richer than nearly any other place on earth. This book starts with a chronicle of a road trip of over a month through India. It covers the slums and markets of Mumbai, the caves of Aurangabad, the palaces of Rajasthan, the holy city of Varanasi and the shiny marble of the Taj Mahal. The book continues with a ten day hedonistic visit to Shanghai, China with visits to massage parlors, tailors, markets, bullet trains and restaurants. The book finishes off with a six week tour of Japan. The trip includes bullet trains and cruises, stops in all three of Japans major islands and side trips to Korea and Taiwan and even to Russian Sakhalin. We stay in both moderately priced hotels and traditional Japanese inns. Festivals, gardens and fish markets are wandered through and Tokyos neighborhoods explored. Whether you are about to visit the lands touched on in this book or just enjoy reading about travel, Jeffs first hand tips and experience guide you from spot to spot. This detailed coverage is accompanied by a hosted photo site designed to be viewed on a PC while the book is being read. This is a companion to The Primer for the Independent Traveler (also available on Amazon) which covers dozens of important topics for both the novice and the experienced traveler. For those who want both the content of the primer and more travelogues like this one in one cross referenced E-book tome, Take the High Road A Primer for the Independent Traveler is a vast compendium of the primer and travelogues like this one covering dozens of trips to more than a hundred countries.
