

## Grade 6 Mathematics Lesson 6 (iPad Math Learning Guides)

This publication has been created with the intent of helping students, teachers, parents, tutors, and any other individuals interested in pre-college education. The brainchild of alumni from some of the best academic institutions (i.e. Cornell University, IIT Delhi, and IIM Ahmedabad), these learning guides are designed to build the bridge between Education and Technology. Each lesson plan maps to the corresponding chapter in the textbooks authored by the National Council of Educational Research and Training (NCERT). The key concepts have been parsed out from the chapter and summarized for knowledge delivery to the student. Further, to enhance the students grasp of the concept or provide a self-teaching aid, an iOS application has been handpicked from the Apple store for use with the iPad or other compatible devices.
