

E-learning Usage Among Academic Staff of Polytechnic in Nigeria

The book is an assessment of the level of E-learning usage among Academic Staff of Polytechnics in the North-West Geopolitical Zone of Nigeria. Four research questions and hypotheses were used with a population of 4010 and sample size of 400. Based on findings which include non-availability of e-learning facilities and existence of barriers hindering e-learning, it was recommended, among others, that Polytechnics use the Tertiary Education Trust Fund to upgrade their ICT facilities.
