

V.A. SUKHOMLINSKY'S PEDAGOGICAL ACTIVITY IN DAYS OF THE WORLD WAR II: memories, documents, researches

Name, biography and work of Vasily Alexandrovich Sukhomlinsky are well known not only among professional educators, but the general public too, as in our country as also far beyond its borders. He is known as an effective leader of a rural school in 50-60 years, the author of many books, Hero of Socialist Labor, member of the Academy of Pedagogical Sciences. His pedagogical heritage has long incorporated into the curricula and textbooks on pedagogics, it has become axiomatic. However, it has not been studied very deeply meaningful period in his biography of educational activities during the Great Patriotic War. In 1942-44, V.A. Sukhomlinsky after injury and treatment in the hospital was in the settlement of Uva Udmurt Republic, where he worked as a teacher and school principal. We managed to find in the Central State Archive of Udmurt Republic Uva school reports; and at Uva School Museum - the Books of orders written by the director. These materials are published for the first time. The book contains V.A. Sukhomlinsky colleagues and pupils memories of Uva-period of his activity. Currently, Uva high school is not just the memory of the world-renowned educator, teachers of the school continue to develop the traditions of his humane pedagogics. It is proved by the work of the V.A. Sukhomlinskys museum and Uva school teachers methodical activity.
