

Journal of the Gypsy Lore Society, Vol. 1 (Classic Reprint)

No. 1. PREFACE. GOOD wine needs 110 bush, and our Journal, we trust, will thrive without self-commendation. Still, a word may well be said as to its aims. These are to gather new materials, to rearrange the old, and to formulate results, so as little by little to approach the goal the final solution of the Gypsy problem. It has already been solved, but in so many and such diverse ways, that the true answer still remains a matter of doubt, if indeed the true answer has ever yet been given. There is Grellmann's theory, by which the Gypsies first reached Europe in 1417, Pariahs expelled from India by Tamerlane less than ten years before. There is the Behram Gur theory, by which, about 430 A.D., the Jat ancestors of our Gypsies were summoned from India to Persia, and from Persia gradually wandered westward. And there is the Prehistoric theory, by which there have been Gypsies in Europe for more than two thousand years, by which Europe, or a great portion of Europe, owes to the Gypsies its knowledge of metallurgy. These are but three out of many theories, besides which there are a number of minor questions, as, When did the Gypsies first set foot in England, or in North and South America? VOL. i. NO. i.
