

Social Media for Humans: Minding & Managing Your Personal Brand Online

Part book, part workbook, this is an introductory guide to social media and how to make it work for you. Social Media for Humans helps readers define how they want to use social media to build and enhance their professional reputation, network with other professionals, and strengthen their personal and professional connections. Based on the presentations and workshops we've been doing since 2008, this eBook is both a 101-level introduction to social media and a workbook. (Yes, there's homework, but it's fun!)
