

On the Beauties, Harmonies, and Sublimities of Nature, Vol. 2 of 3: With Notes, Commentaries, and Illustrations; And Occasional Remarks on the Laws, ... Manners, of Various Nations (Classic Reprint)

Excerpt from On the Beauties, Harmonies, and Sublimities of Nature, Vol. 2 of 3: With Notes, Commentaries, and Illustrations; And Occasional Remarks on the Laws, Customs, Habits, and Manners, of Various Nations With bees we may associate Ants, - so variously treated of by Lewenhoeck, Swammerdam, Linnaeus, Geoffrey de Geer, Bonnet, Latreille, and Huber. Ants, like bees, are divided into males, females, and neuter; or rather females, who, being barren, from their sexual organs not being developed, are labourers for the benefit of the entire community. Like those of bees, the males and females of ants seem to have no other duties, than just to live and to procreate. The barren ones provide food, construct the habitations, nurture the young, and guard the citadel. In building they exhibit much ingenuity; every one seeming to follow his own fancy. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
