

The Dallas Public Library: Celebrating a Century of Service, 1901-2001

From its founding one hundred years ago by a group of dedicated women working to better life and opportunity in their fledgling metropolis, the Dallas Public Library has provided essential services to the people of Dallas. In *The Dallas Public Library*, Michael V. Hazel presents the centennial history of this landmark institution, from its genesis as a single library with a staff of five, to a central library and twenty-two branch libraries with a staff of more than five hundred. This is the story of committed leaders like May Dickson Exall, who persuaded Andrew Carnegie to give \$50,000 to build Dallas's first free public library, and director Cleora Clanton, who stretched a shoestring budget to provide service to all citizens of Dallas at a time when minorities were often shunned and intellectual freedom challenged. It is also the story of beloved director Lillian Bradshaw, who built a major central library facility and a network of branches that reflect the interests of the neighborhoods they serve. More than just a repository of books, the Dallas Public Library has offered many people a place for lifelong learning, practical skills development, pursuit of personal interests, and recreation. Through the years, the library has grown and changed with the city of Dallas and is ready once again as technology drives the information market to adapt its services to meet the needs of Dallas citizens. This is the centennial history of a landmark institution, from its genesis as a single library with a staff of five to a central library and twenty-two branch libraries with a staff of more than five hundred. Richly illustrated with two hundred black-and-white photographs and ten color plates.
